Dr. Gordon I. Groh, an orthopaedic surgeon with Blue Ridge Bone & Joint, has published a paper on the treatment of dislocated shoulders in the *Journal of Shoulder and Elbow Surgery*.

Groh is a board-certified specialist in shoulder, elbow and hand surgery at Blue Ridge Bone & Joint, with offices in Hendersonville and Asheville.

His research followed the cases of patients at Blue Ridge Bone & Joint over the course of 32 years with a rare injury, traumatic inferior shoulder dislocation.

Before joining Blue Ridge Bone & Joint 15 years ago, Groh served as a full-time faculty member and director of shoulder and elbow surgery at the University of Colorado School of Medicine in Denver.

Groh is one of only four orthopaedic surgeons in the nation to hold memberships in the American Shoulder and Elbow Surgeons (ASES) society as well as the American Society for Surgery of the Hand (ASSH).

The ASES, open by invitation only, is an educational body of leading national and international orthopaedic surgeons who specialize in surgery of the shoulder and elbow.

For more information, call Blue Ridge Bone & Joint at 698-4318, or visit www.DrGordonGroh.com.
